Part VI - School District Summary Data..... 92

Table
VI-1 Selected Financial Statistics on California Public School Districts, by County and by District, 1986-87..... 93

Introduction

Selected Financial and Related Data for California Public Schools is prepared annually by the staff of the Local Assistance Bureau for School Apportionments, Grants, and Fiscal Assistance of the California Department of Education and is intended to be a comprehensive source document for those who need accurate school finance data presented in a summary format.

We invite your suggestions and comments on how this publication might be expanded or improved and request that they be directed to:

Administrator
Local Assistance Bureau for School Apportionments,
Grants, and Fiscal Assistance
Department of Education
P.O. Box 944272
Sacramento, CA 94244-2720

Most of the financial statistics displayed in this publication are for fiscal year 1986-87 or show 1986-87 as the most recent year in a multiyear table. This is because 1986-87 was the most recent year for which we have complete (as opposed to estimated) data. The books are just now closing on fiscal year 1987-88, and this information will be reported to the Department during the coming year for inclusion in next year's Selected Financial and Related Data.

The financial data contained in this document were compiled from annual financial reports submitted to the Department by local educational agencies (forms J-41, J-380, J-41A, J-73, J-580, and J-73A). Every effort was made to ensure that the reports of all active California school districts and county offices of education were included in this summary. This information is, however, only as accurate as the data received, and the reader should note that this information had not been audited at the local or state level by the time it was received. The general, nonfinancial data contained in this document were derived from a number of different reports also submitted by local agencies.

Classification of income and expenditures used in this statistical report are in accordance with the 1986 California School Accounting Manual unless otherwise noted. For more detailed financial data, derived from the same source documents, the reader may wish to consult the Annual Report of Financial Transactions Concerning School Districts and Community College Districts of California, which is published for each fiscal year by the State Controller.

ROBERT W. AGEE
Deputy Superintendent
Field Services Branch

Carl E. Burson, Jr.
Acting Administrator, Local
Assistance Bureau for
School Apportionments,
Grants, and Fiscal
Assistance

Part I
General Statistics

The tables displayed in Part I of this document present general or demographic information which, while relevant to school finance, is not strictly financial. Information on the number and type of California school districts and schools is intended to provide the reader with an appreciation of the size of California's educational system for kindergarten through grade 12. Information on enrollment and average daily attendance (ADA) add to the understanding of size while providing the reader with the basic workload statistics which are most frequently used for distribution of funds. Additional information on the length of the school year and the numbers and average salaries of staff are particularly relevant to school reform initiatives that seek to increase instructional time, avert potential teacher shortages, and reduce class size. These tables present only the most summary basic data and are by no means exhaustive of the available general information. For additional general statistics, the reader may wish to consult the departmental publication titled Selected Education Statistics, California Public and Private Schools.

Much of the information in Part I was compiled from the California Basic Educational Data System (CBEDS) and has not been audited or otherwise verified. The average daily attendance (ADA) used in these tables is "annual" data which may be compiled before local audits are completed for all districts. The reader should note that CBEDS's data are collected annually in October and are, therefore, "point-in-time" information as contrasted with "annual average" data such as ADA. Thus, ADA may exceed enrollment when a net increase in enrollments occurs after October.

Notes:
Statewide average daily attendance for this summary is accumulated without regard to rounding of ADA for crediting to each district and, as a result, will not equal revenue limit ADA.

Adult total = total of column labeled "Adults Not Concurrently Enrolled" plus County Office ROC/P, Not Concurrently Enrolled, Mandated and Nonfunde..

No breakdown between elementary and secondary levels is available.

Note: Enrollment figures are as of October for all fiscal years, whereas average daily attendance figures are cumulative from July 1 through June 30. Since enrollment data exclude certain pupil categories, the same categories are excluded from the ADA data in order to make valid comparisons. The excluded ADA categories are adult education, ROC/P, summer school, extended year programs, special education for nonpublic schools, and state hospital students in special day classes. Both statistics include county office attendance excluding tuition fund ADA and the categories listed above. Because of these exclusions, this table will not compare with other ADA tables in this document.

Table I-10

Comparison of State Total Average Daily Attendance to Enrollment for Selected Years

Year	K through 8			9 through 12			K through 12

Total	651	100.0	114	100.0	302	100.0	1067 **	100.0

*The legal minimum is 175 days.

**In 1986-87 there were 1,028 school districts. There were 39 schools that had approval to operate a different number of days from the number for the rest of the schools in their districts because of emergency conditions or other considerations. Data entry guidelines for attendance documents make it necessary to report the data for these schools as separate districts for this table.

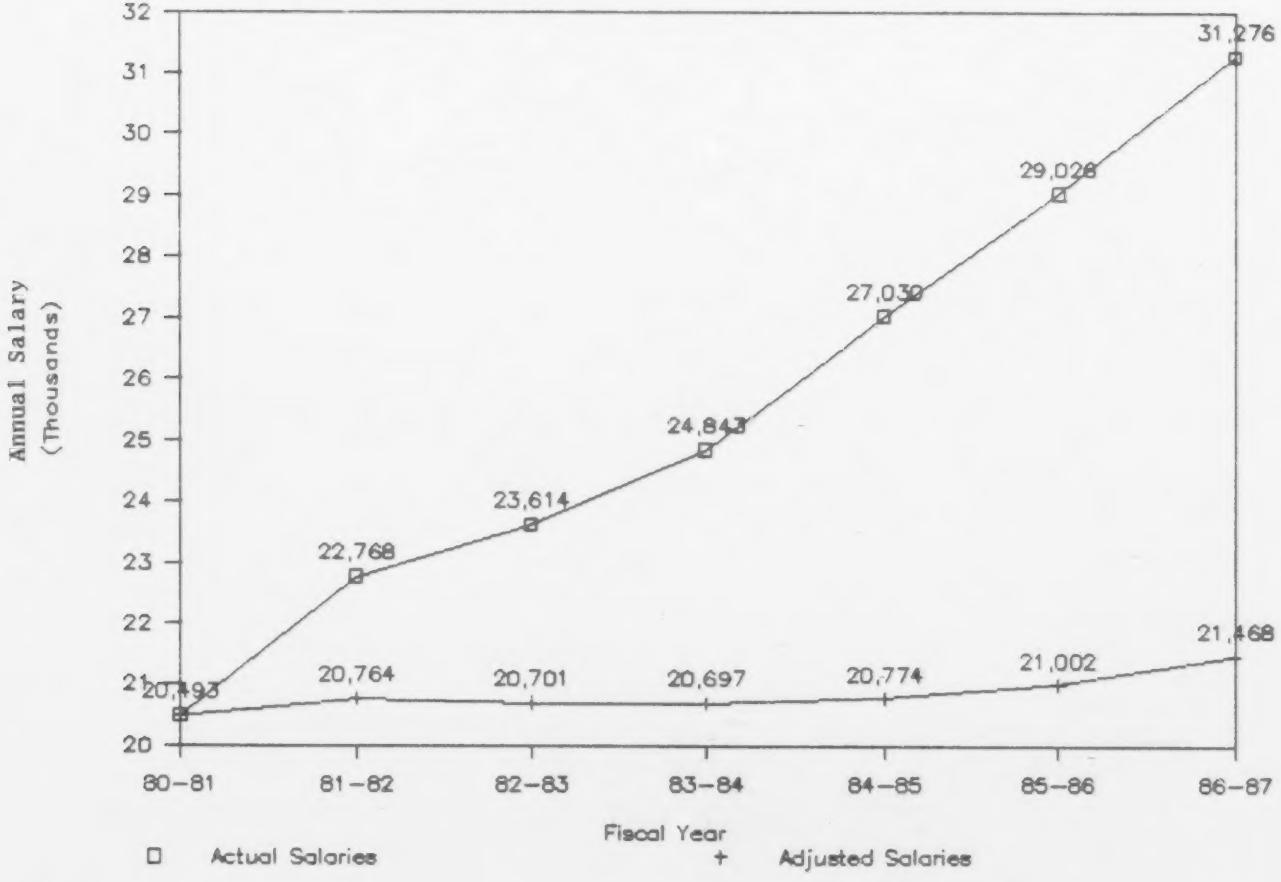
*"Averages" displayed in this table are simple mean averages which may be significantly affected over time by hiring practices that accentuate one end of the range. For example, the hiring of a large number of new teachers at the first step of the range will tend to reduce the average, while a clustering of senior teachers at the top end of the range may inflate the average.

**From U.S. Dept. of Commerce/Bureau of Economic Analysis publication, Survey of Current Business, August, 1987, Volume 67, Number 8.

Table I-17

Average Teachers' Salaries,
Actual and Adjusted, by California Per Capita Personal Income



Part II
Income

Public school income is derived from local, state, and federal sources and is often characterized by source. While most income may also be considered revenue, there are some nonrevenue sources of income. The reader should consult Part III of the 1986 California School Accounting Manual for the definitions of terms that are used in these tables of revenues and expenditures.

The tables and displays of Part II provide summary aggregate data for all public school districts and county offices of education in California as reported to the Department of Education. The reader is cautioned to examine carefully the descriptions of the data in each table. For example, tables 3, 4, 5, and 9 contain information pertinent only to local general funds, including individual districts' general funds and County School Service funds. Local general funds should not be confused with the state General Fund, from which most state appropriations are made. Local general funds include income from state, local, and federal sources, including income provided for general or specified purposes (both basic and categorical). Local general funds do not include income to other local funds, a listing of which may be found in Table II-7.

Several tables in Part II refer to revenue limits, which are described in the note under Table II-16. Composed of both state and local general purpose revenues, the revenue limit is the single most important element of school finance in California.

Table II-1

Public School Income, All Sources, 1986-87*

Agency	Local	State	Federal	Total
School Districts:				
Property Taxes	$3,507,290,226			$3,507,290,226
Other Income	949,299,940	$11,697,224,937	$1,078,107,842	13,724,632,719

1974-75	3,890,519,359	52.43	2,950,645,929	39.76	579,223,786	7.81	7,420,389,074

Note: This table includes all income accounts from all funds reported by school districts in their "Annual Financial and Budget Report," Form J41, and by county offices of education in their "County Superintendent of Schools Budget and Financial Report," Form J73, excluding income reported in the Self-Insurance Fund. In addition, state income includes the school district textbook credit and the state contribution to the State Teachers' Retirement Fund, and federal income includes the value of commodities donated by the Department of Agriculture.

*Districts' "County Income" category is considered local income.
**Income classified as "Combined Federal and State Income" is included in state income.

Deferred Maintenance	7,916,042		75,567,972		83,484,014
Total Districts' Income	$4,442,410,086	$14,180,080	$11,697,224,937	$ 996,935,681	$17,150,750,784
County Office Funds					
County School Service	$ 297,808,108		$ 579,740,134	$ 161,039,620	$ 1,038,587,862
Forest Reserve	685,945			26,023,651	26,709,596
Deferred Maintenance	350,972		1,007,398		1,358,370
State School Building and Lease Purchase	601,802		12,443,269		13,045,071
Child Development	1,700,943		34,696,945	11,005,887	47,403,775
Special Reserve	3,488,901				3,488,901
Total County Office Income	$ 304,636,671	$ -0-	$ 627,887,746	$ 172,045,507	$ 1,104,569,924
Total District and County Income	$4,747,046,757	$14,180,080	$12,325,112,683	$1,168,981,188	$18,255,320,708

Notes: (a) "State Income" includes the category "Combined Federal and State Income."
(b) Federal Forest Reserve Fund Income is not included in column totals because it is transferred to district general funds and county school service funds, where it is reported as income.
(c) To compare this table to tables II-1 and II-2, add the state contribution to the State Teachers' Retirement Fund ($463,581,000) and the school district textbook credit ($20,667,171) to state income, and the value of commodities donated by the U.S. Department of Agriculture ($81,172,161) to federal income. The total income increases from $18,255,320,708, as shown on this table, to $18,820,741,040, as shown on tables II-1 and II-2.

*Based on 1987-88 first principal revenue limit data and ADA projections based on 1986-87 second principal attendance reports.
**$100 standard applicable in 1974-75, adjusted for California Consumer Price Index.

Note: The data in Table II-16 are the bases for tables II-17 through II-23. These tables chart the base revenue limit closure for school districts categorized as small elementary (less than 101 ADA), large elementary (more than 100 ADA), small high school (less than 301 ADA), large high school (more than 300 ADA), small unified (less than 1,501 ADA), large unified (more than 1,500 ADA), and all districts combined.

The revenue limit was introduced in the early 1970s in response to the original Serrano decision. Prior to 1972, school districts' revenues for general operating purposes varied dramatically. The California Supreme Court upheld a lower court finding that these variations related to local property wealth and constituted an unconstitutional violation of pupils' rights to equal educational opportunities. The Legislature responded to the Serrano decision by establishing base revenue limits per ADA for all school districts, based on districts' then-current funding levels and by providing for closure among base revenue limits per ADA over time. An examination of Table II-22 reveals that 50.7 percent of the students (as shown by the state's ADA figures) were enrolled in school districts having base revenue limits per unit of ADA within $100 of one another in 1974-75. By 1987-88, 95.4 percent of the students were in school districts having base revenue limits per ADA within $238 of one another; i.e., the $100 standard applied in 1974-75 adjusted for inflation as measured by the California Consumer Price Index.

*Totals may not agree with sum of detail due to rounding errors.
**Weighted average revenue limit per ADA, i.e. (81,290,907 ÷ 15,663).

Part III
Expenditures

Public school agencies' budgeting and accounting systems include a variety of funds, but the General Fund is common to all operating districts, and the equivalent County School Service Fund is common to all county offices of education. This section stresses expenditures of these "general" funds, but Table III-15 also presents expenditures of other funds. The California School Accounting Manual provides for uniform classification of expenditures which is consistent for the several funds.

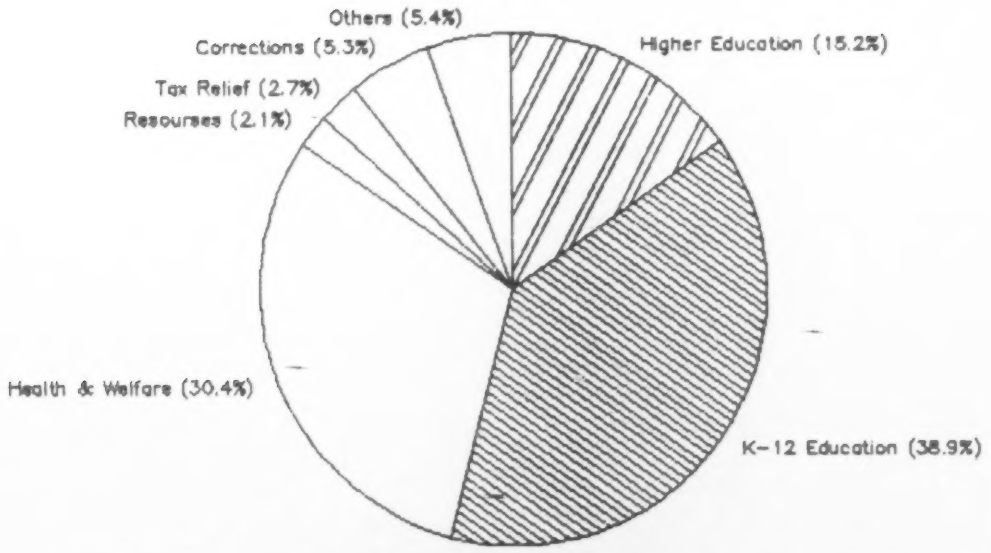
Expenditures are presented in terms of object of expenditure. Object classifications are for the most part self-explanatory, such as "teachers' salaries," "textbooks," or "pupil transportation supplies." The seven major object of expenditure classifications that public school agencies must account for are (1) 1000-Certificated Salaries; (2) 2000-Classified Salaries; (3) 3000-Employee Benefits; (4) 4000-Books and Supplies; (5) 5000-Services and Other Operating Expenditures; (6) 6000-Capital Outlay; and (7) 7000-Other Outgo. The tables in Part III present dollar amounts for the several objects of expenditure, the amount per unit of average daily attendance, and the percent of total expenditures each amount represents.

California's ranking, in comparison to other states, on measures of "expenditures per pupil" has become a topic of some interest in recent years. This issue is sometimes confused by different definitions of "current expense," and Table III-13 attempts to avoid this confusion by providing the three major definitions used in discussions of California. There are two nationwide agencies that collect this information and compute rankings, and the definitions used by these agencies are shown along with a statutorily defined "current expense," which is unique to California. The California definition is the most limited of the three, and its statutory definition may be found in Section 41372 of the Education Code. This definition is used uniformly throughout California but does not necessarily conform to definitions used in other states. To make national comparisons, one must use one of the definitions of the nationwide ranking agencies. The federal Department of Education's Center for Education Statistics (CES) incorporates all of the expenditures in the California definition and then adds other local expenditure items as shown. The National Education Association (NEA) Research Division disregards certain CES exclusions but then adds certain statewide expenditures that cannot be related to particular school districts. Because of these statewide expenses, current expense per pupil cannot be calculated for individual school districts using the NEA definition. Current expense can be calculated for individual districts under the state and CES definitions, and the results of these calculations are shown in Part VI.

It should be noted that expenditures take time to record, verify, and compute in "final" form. It generally takes several months after the end of a fiscal year to "close the books" and make any audit adjustments. Because ranking comparisons must be current to be useful to policymakers, many reported rankings are based on estimates of expenditures that are frequently prepared before the year is actually ended and all of the expenditures actually made. These estimates can be useful, but it should always be understood that they are "subject to change." This edition of Selected Financial and Related Data contains expenditures for no year later than 1986-87. This information was reported as "actual" after the books were closed but before audit adjustments, if any, were made.

Table III-1

Distribution of State Expenditures
State General Fund, 1986-87



K-12 Education and All Education as
Percent of State General Fund Expenditures

Year	Percent of General Fund Expenditures: K-12	K-12 Plus STRS	All Education	Total General Fund Expenditures (in thousands)
1986-87	37.44	38.91	54.12	$31,469,006
1985-86	36.94	38.39	54.06	28,841,313
1984-85	37.34	38.65	54.51	25,721,660
1983-84	37.04	38.61	52.70	22,869,226

1969-70	672	701	898	945	766	797	765	802
1959-60	341	361	519	560	423	441	409	435

Notes: "Current Expense of Education" includes expenditures of the following classifications as defined in the California School Accounting Manual: 1000-Certificated Salaries; 2000-Classified Salaries; 3000-Employee Benefits; 4000-Books and Supplies; 5000-Services and Other Operating Expenditures; 6500-Equipment Replacement. Expenditures for the following programs are excluded from the preceding classifications: Food Services, Community Services, Fringe Benefits for Retired Persons, and Facilities Acquisition and Construction.

"Total Expense of Education" includes expenditure classifications 1000-5000 as defined above plus classification 6000, Capital Outlay. The exclusions listed for the "current expense" definition above are not excluded from this definition, but only General Fund expenditures are shown.

Figures for 1959-60 and 1969-70 include community college districts, which slightly inflates "All Districts" expenditures per a.d.a. for those years.

Table III-4

Districts' Current Expenditures per Unit of Average Daily Attendance
by Size and Type of District, for Selected Years[1]

Type of District	1980-81	1981-82*	1982-83*	1983-84	1984-85	1985-86**	1986-87**

Table III-13

Definitions of Current Expenditures of Education

State of California Definition*	National Center for Education Statistics (NCES) Definition	National Education Association (NEA) Definition
Includes the following items:	Includes the following items:	Includes the following items:
1. Certificated Salaries 2. Classified Salaries 3. Employee Benefits (does not include state contribution to STRS) 4. Books, Supplies, and Equipment Replacement (does not include school district textbook credit) 5. Services and Other Operating Expenses 6. Exclusions from the above items: a. Food Services Expenditures b. Facilities Acquisition and Construction c. Community Services Expenditures d. Fringe Benefits for Retired Persons	1. State of California definition items (from column to the left) 2. Books and media for new and expanded school libraries 3. New Equipment 4. Net Food Services 5. State Contributions: a. School District Textbook Credit b. State Teachers' Retirement System 6. The following income is subtracted from the total of the above items: a. Tuition and Transportation Fees from Individuals b. Income from specified federal grants	1. Items 1 through 5 of the NCES definition 2. Administration by the State Board of Education 3. Administration by the State Department of Education, excluding the following: a. Expenditures for vocational rehabilitation b. Salaries for personnel who provide supplementary services; e.g., state library, state museum, teacher retirement, teacher placement

*The source documents for the state of California's definition of expenditures are the "Annual Financial and Budget Report," Form J-41, for school districts; and the "County Superintendent of Schools Budget and Financial Report," for county offices of education. Complete breakdowns and definitions of the component parts of the object classifications are contained in the California School Accounting Manual.

Total Exp. & Other Outgo	$304,566,905	$155,732,037	$637,101,468	$197,186,283	$750,271,366

*Capital Outlay includes the following funds: Bond Interest and Redemption, Building, Special Reserve, and State School Building and State School Building Lease-Purchase. Bond redemption payments of $133,349,258 and bond interest payments of $39,855,618, for a total of $173,204,876, are included in this column in Other Outgo.

Part IV
Special Education Master Plan

The tables in Part IV present general data on special education funds from the onset of the Master Plan for Special Education in 1980-81 through the 1985-86 fiscal year. In the base year, each reporting entity received support services ratios, local general fund contributions, and unit rates, as appropriate, according to the reported data and calculations specified in law. Those entities coming into special education after the base year received the statewide averages of the support services ratios and unit rates. Because of the abundance of data, most of these tables will include statewide averages.

Table IV-1 shows the total calculated (net) entitlements, the appropriation amounts, deficit amounts, deficiency appropriations, and remaining deficits. In the 1980-81 fiscal year, transportation and regionalized services were included in the instructional program entitlements. From 1981-82 through 1983-84, transportation had separate entitlement programs. In 1984-85 and subsequent fiscal years, special education transportation was consolidated into the regular transportation funding mechanism.

Table IV-2 shows the unduplicated pupil counts by setting, the number of funded units, and the statewide average loading per unit.

Tables IV-3 through IV-5 include the statewide average unit rates (with cost of living adjustments), support services ratios, and local general fund contributions per unit of average daily attendance.

Table IV-1

Statewide Special Education Entitlements, Appropriations, and Deficits

Program Area	Fiscal Year	Net Entitlement	Appropriation	Deficit	Deficiency Appropriations	Remaining Deficit
Instructional Program	*1980-81	$748,731,675	$625,131,421	$123,600,254	$30,081,240	$93,519,014

1986-87	45.27	281,725

Part V
Categorical Programs

Traditionally, a distinction is made in public school finance between "general" and "categorical" school aid. This distinction centers on the degree to which the use of funds is restricted by the appropriating authority. In theory, general aid is expended at the discretion of the local school district governing board with few state controls, except those rules that ensure the legal expenditure of all public funds. The state portion of base revenue limit funding is considered to be general aid. A categorical program, by contrast, earmarks school aid for one or more purposes and has a prescribed set of standards for the use of funds. Categorical funds are typically targeted towards specified groups of students (population categories) or particular purposes (categories of expenditure). For example, the Miller-Unruh Reading Program provides funds for the employment of reading specialists (a specified purpose), while compensatory education funds are reserved for the provision of supplemental assistance to educationally disadvantaged students (a population group).

Categorical programs have been established by both the state and federal governments and range in size from those programs that have been implemented in almost all districts nationwide to small demonstration or research projects that may affect only one school district. By some definitions, there are more than a hundred categorical programs implemented in one or more California school districts, and it is almost impossible to provide relevant data for each program. In this edition of Selected Financial and Related Data, we provide information for those programs from which the data were most easily retrieved. We recognize that many programs are not yet covered in this chapter, and we intend to add more tabular data in the coming years.

The tables that we developed for inclusion in this chapter provide information relevant to each program. Some of that information is more statistical than financial, although most of the data are relevant to computation of local agency entitlements or appreciation of the size and scope of the program. We have labeled this information with some care and would advise the reader to avoid the common mistakes of equating appropriations with expenditures or assuming that "costs" are always fully funded by state or federal sources. The source documents for this varied information are too numerous to list here, but we have attempted to note sources as footnotes in each table.

*The apportionment amount is the lesser of (1) ADA times rate per unit of ADA; or (2) program expenses.

Table V-4

Data for Adults in County Correctional Facilities for Selected Years

Fiscal Year	Total ADA Served in Prior Year	80% Statewide Average Adult Revenue Limit	District Expenditures During Prior Year	State Reimbursement*
1986-87	2,729.75	$987	$1,963,257	$1,931,000
1985-86	2,165.92	927	1,808,999	1,725,658
1984-85	2,219.80	858	1,671,970	1,596,170
1983-84	2,090.00	753	1,266,147	1,207,452
1982-83	1,797.63	754	1,175,946	1,113,490
1981-82	1,788.16	727	1,169,661	1,022,773

*The reimbursement amount is the lesser of (1) total ADA served in the prior year (column 2) times 80% of the Statewide Average Adult Revenue Limit (column 3); or (2) district expenditures during the prior year (column 3).

Table V-5

Data for California Mentor Teacher Program,[1] 1983-84--1987-88

Year	Appropriation	Mentor Teachers		Percentage of All Teachers[4]	Number of Districts Participating[5]
		Number Entitled[2]	Percentage Awarded[3]		
1987-88	$ 49,750,000	8,274	not yet available	3.95	947
1986-87	45,750,000	7,602	95	3.74	919
1985-86	44,750,000	7,429	93	3.75	857
1984-85	30,800,000	5,181	84	2.84	742
1983-84[6]	10,805,165	3,601	65	2.00	645

[1]Source: Local Assistance Bureau, Department of Education. Appropriations are taken from annual Budget Acts, and percentages of mentor positions awarded were compiled from annual financial reports of participating educational agencies.

[2]The number of mentors that districts were entitled to appoint, given available funding.

[3]The percentage of mentor positions that were actually filled during the year.

[4]This is the "entitlement" percentage, representing the average percentage of all eligible teachers that could be appointed as mentors given available funding. Each district's actual percentage varies because entitlements are, by law, rounded up to the next whole mentor position. The maximum average percentage statewide is set at 5% by law.

[5]Includes county offices of education that are entitled to participate.

[6]The California Mentor Teacher Program was originally authorized by SB 813 in 1983 and was implemented halfway through the 1983-84 year. Mentor stipends and "other cost" allowances were all initiated at half value during this year. Stipends, normally $4,000 each, were only $2,000 in 1983-84.

Table V-6

Data for Classroom Teacher Instructional Improvement Program,[1] 1984-85--1987-88

Year	Appropriation	Value of Grants Actually Awarded[3]	Administrative Reimbursements[4]	Number of Grants[2]	Number of Teachers[2]	Districts[2]
1987-88	Vetoed					
1986-87	$17,000,000	$15,942,873	$608,313	9,034	17,186	937
1985-86	17,100,000	16,209,360	647,389	8,924	16,642	940
1984-85	17,100,000	15,278,031	593,493	8,113	15,083	872

[1]Source: Local Assistance Bureau, Department of Education. Appropriations are taken from annual Budget Acts, and other data are compiled from annual participant financial reports.

[2]Information is displayed for actual number of grants made, teachers who were recipients of grants, and school districts that participated during the years shown. County offices of education are not legally eligible to participate in this program.

[3]Grants of up to $2,000 may be made to each teacher, but actual grants differ in accordance with individual proposals. This is the sum of actual grant awards made during the years noted.

[4]Participating districts are allowed by law to claim up to 5% of their annual entitlement for actual costs of administration.

1984-85	18,166,000	147	918	86,115	24,946	19,789	(5,157)	79	65
1983-84	17,152,920	149	948	87,287	23,494	18,665	(4,829)	79	65
1982-83	16,182,000	163	905	83,980	22,333	17,070	(5,263)	76	64
1981-82	16,181,744	164	964	86,760	20,876	16,786	(4,090)	80	66

Purpose of the Miller-Unruh Reading Specialist Program of 1965: To provide for the prevention, and the correction of, reading disabilities at the earliest possible time in the educational career of the pupil. Appropriations have been providing only 80% or less of the funding level required by statutes and approximately 65% of the actual salaries paid to specialists.

Table V-9

Economic Impact Aid (EIA) Data for Selected Years

Year	Appropriation	Set Aside for Minimum Grants ("Bounce File")[1]	Related Data (Statewide Totals) AFDC Count	LEP Count
1987-88	$196,952,000	N/A[2]	684,420	566,014
1986-87	196,952,000	< $17,933,560 >	650,343	522,289
1985-86	195,002,000	< 17,756,000 ->	630,469	486,438
1984-85	187,502,000	< 17,703,000 >	618,197	457,118
1983-84	182,041,220	< 16,575,347 >	586,218	430,434
1982-83	171,737,000	< 15,637,120 >	567,399	375,318

[1]This sum is appropriated within the total amount but is set aside by budget language to provide districts with minimum "floor" entitlements per district or per pupil, whichever is greater.

[2]The 1987-88 distribution of EIA was made in exact proportion to 1986-87 in accordance with Budget Act instructions.

Table V-10

Education Consolidation and Improvement Act (ECIA)
CHAPTER 1 [Federal Compensatory Education] Data, 1982-83--1987-88

Year	Grant for Compensatory Education	Grant for Migrant Education	Grant for Neglected & Delinquent	Grant for Handicapped
1987-88	$328,980,805	$82,256,344	$3,042,833	$1,310,066
1986-87	287,891,034	74,927,496	2,740,150	1,420,820
1985-86	285,594,569	73,819,118	2,889,248	1,482,605
1984-85	279,867,944	73,615,977	2,860,977	1,685,361
1983-84	251,680,343	70,011,566	2,772,349	1,907,371
1982-83	226,717,803	62,280,633	2,850,302	2,165,031

Table V-11

Education Consolidation and Improvement Act (ECIA)
CHAPTER 2 [Federal Block Grant] Data, 1982-83--1987-88

Year	Federal Grant Level	Set Aside for Local Agency Block Grants[1]	Minimum LEA Grant Level	Amount per "Point"[2]
1987-88	$48,605,466	$38,884,373	$3,409	$5.58
1986-87	46,407,871	37,133,923	3,256	5.48
1985-86	48,014,758	38,411,807	3,368	5.84
1984-85	42,771,613	34,217,291	3,000	5.39
1983-84	42,415,393	33,932,315	2,500	4.17
1982-83	41,291,513	33,227,110	2,500	3.09

[1] By federal law, at least 80% of the total state grant must be set aside for distribution to local educational agencies by formula. The formula must be enrollment based, although district entitlements are weighted for factors such as concentrations of children with special needs and sparsity of population.

[2] California's formula for distribution of local block grants provides each local educational agency with one "point" for each student enrollment. Extra points are provided per special need child, if the concentration of such children in the district exceeds the statewide average.

Table V-12

Funds Allocated to Districts from the State's Instructional Materials Fund, by Level, for Selected Years

Fiscal Year	Grades K-8		Grades 9-12		Grades K-12
	Total Amount	Amount per Unit of ADA	Total Amount	Amount per Unit of ADA	Total Amount

Spec. Educ.	5,105	73,099	86,073,093	131,433,613	131,129,806	1.527	1790.54	113,031,841

*Includes amount per funding formula (see Education Code sections 41850—41854) plus allocations for bus replacement, ROC/P, prior years' corrections, and capital outlay for newly unified districts.

**In 1983-84, data for transportation were reported separately for regular and special education programs. In subsequent years data were reported combined.

***The fiscal year in this table is the year in which the state reimbursement was given. The reimbursement is based on the preceding year's data.

Part VI
School District Summary Data

Part VI includes information related to individual active school districts in California. It is natural to want to compare individual districts' data, but the reader should be cautioned that the diversity of California education makes valid comparisons of these numbers extremely difficult. Small school districts, for example, are frequently situated in remote geographical locations with high transportation and utility costs, compounded by adverse weather conditions. Great variations in expenditure patterns may result from the unique programs of districts, regardless of size; and for these reasons, we strongly advise those who would compare expenditures to take the time necessary to understand these differences.

All of the information presented in Part VI was collected for the 1986-87 school year. Average daily attendance (ADA) figures are from the "annual" report (not computational ADA) and do not include classes for adults or county-operated programs. For these reasons, the ADA shown here is not comparable to ADA reported in other tables in this document. For definitions of the current expenditure figures shown here for the state and comparative figures from the National Center for Education Statistics (NCES), the reader should consult Table III-13.
